

## Resort Manager's Report

Mark Zimmerman  
Resort Manager

This report will update you on Squaw Valley happenings other than OVI Operations, which the President's report addresses.

### Squaw Valley Development (KSL) (Squaw Valley Real Estate, LLC)

A draft environmental impact report was just released May 15, 2015. There is a 60-day public comment period that starts May 18, 2015 and ends on July 17th, 2015. The link to access the document is: <http://www.placer.ca.gov/departments/communitydevelopment/envcoordsvcs/eir/villageatsquawvalley/draft%20eir>

## Turning to the Horizon: Tahoe Summer

The dry conditions and warmer temperatures have once again made an early appearance into the Tahoe basin. An inspired light has been on the horizon for some time and has set into motion early summer-like enthusiasm.

The transition from winter to summer has been very smooth this year – as many know, we hardly had any winter to transition from. Frogs were hatching in February, flowers were blooming in March, and our ski resorts were melted-out by April. But despite the doomsday rumors that there will be nowhere to launch or refuel boats on Tahoe this year, or even be able to rent a kayak, summer will carry on around the lake in 2015.

Though some summer activities will be curtailed such as rafting on the Truckee and certain marinas and launch ramps will be closed due to low lake levels, there will still be multiple places to launch and rent boats in North Tahoe this summer and flat-water activities such as kayak or Stand-Up-Paddling rentals should not be affected. While we have seen a shortage of water in the Tahoe region over the last few years, there has been a steady increase of athletes visiting the area to train and prepare for various endurance races including the much anticipated Ironman Triathlon which will return again in September after last year's unfortunate last-minute cancellation due to thick smoke from the lengthy "Rim Fire".

The region also will play host to numerous music and entertainment festivals including the Wanderlust Yoga and Music Festival in Squaw Valley and the

Shakespeare Festival at Sand Harbor.

The Activities and Recreation Department will again offer a full variety of happenings to keep guests active, educated, and entertained during the 2015 summer season. As always, we will offer multiple craft classes for guests to participate in throughout the week including: pottery painting, mosaics, and other new activities currently being developed.

For exercise options, aside from our clubhouse exercise room, we will host a series of free yoga and water aerobics classes during the week that are suited for a wide range of abilities. Guests can also participate in one of our weekly hiking adventures hosted by the staff, always a great fusion of exercise and interaction. One benefit of the drought; without the typical high-alpine snowpack this year, we will have virtually unlimited access to all of our favorite hiking and biking trails from May. After a long day of summer undertakings guests can unwind in one of our many hot tubs, the clubhouse sauna,

# Resort Manager's Report

(Continued from page 1)

The Board of Directors has a Board Meeting June 27, 2015 and will address responses to the draft EIR. On our website [olympicvillageinn.com](http://olympicvillageinn.com) are previous comments on the project from the Board of Directors under (HOA) (Squaw Valley Specific Plan). We will update the website after the Board Meeting.

You can forward your comments to Mark Zimmerman at [mark@olympicvillageinn.com](mailto:mark@olympicvillageinn.com) or to Placer County at [cdraecs@placer.ca.gov](mailto:cdraecs@placer.ca.gov).

As of this writing May 19, I have not reviewed the Draft EIR yet.

## Connection gondola between Squaw Valley and Alpine Meadows

April 13, 2015 it was announced that an agreement was reached to connect the two ski resorts via a gondola. The press release is included as an insert of this newsletter. I would imagine this will be a long process to complete.

## Incorporate Olympic Valley (Squaw Valley)

Last summer's newsletter also addressed the beginning stages of efforts by some local residents to incorporate Olympic Valley as a city. The process to bring this effort to a vote includes a financial analysis and an environmental impact report, which are still in process. The Board of Directors has not expressed an opinion on this issue as they are waiting for those reports previously mentioned before giving input on incorporation. It is unknown at this time when reports will be issued by Placer County.

I hope you have the opportunity to take a vacation this summer, get away from stress or experience a new adventure. Squaw Valley and Lake Tahoe offer many opportunities on a year round basis that I encourage you to experience.

Sincerely,

Mark Zimmerman, Resort Manager

# President's Report

Alan Traenkner  
President

The snow all went to our friends in the east this year, unfortunately for our ski season and water supply; hopefully this weather is leading to a great spring and summer season up in the mountains.

There has been a lot of activity around OVI this past year with regard to Squaw Valley: planning for an official community and the joining of Squaw and Alpine ski areas. Your homeowner's board has been tracking and influencing these developments to protect our interest very carefully. We have expanded our board meetings for the last two sessions to work on some important projects, mainly homeowner value. We have been brainstorming ideas, listening to input from owners and others, analyzing the impact on our resort, all with the idea of adding value for our owners. Also our finance committee has been working to stretch every dollar and our refurbishment committee has been accelerating the room remodel.

Much of the impact on our work will be seen as we move forward, but some of it I am happy to announce now. Almost every room at the resort has been remodeled ahead of schedule for certain items such as flat screen, energy efficient televisions and new higher, water saving, ADA compliant toilets. Also our television reception is in the process of being changed to save money and to provide better service.

From a financial aspect, we were projecting this year a need to increase our additional contribution to reserves because of the remodel project, but now we are keeping that at the current level;

this is a major accomplishment; it saves dollars for every homeowner and allows the much needed room refurbishment project to move forward. Let me remind everyone the additional contribution to reserves is a separate temporary line item for the remodel project; it goes away completely when this project is finished. Thus, the homeowner cost is being held to \$50/year for the remodel, as opposed to \$100/year projected last year.

The board is also working on issues currently controlled by CC+R's (Covenants, Conditions, and Restrictions) that will require homeowners' approval to change. They include:

1. To maximize rental income to the resort we are studying the impact of increasing the current three unit reservations per week per owner restriction. Rental income helps reduce homeowner dues.
2. Currently we are curtailed by the CC+R's to only contract for one year. Increasing that time limit would enable OVI to enter into longer term agreements at a lower annual cost, such as for cable service.
3. Considering allowing some units to have pets, in order to retain owners or to sell to new owners.

As always, we welcome your input; nothing will be changed without a vote of the owners.

Let me express my best wishes to all of you; please try to come up to OVI soon and enjoy the serenity.

Sincerely,

Alan Traenkner, President of the Board

# Turning to the Horizon: Tahoe Summer

(Continued from page 1)

next to our cozy outdoor firepit, or in our lobby listening to local author and historian Mark McLaughlin's informative and always entertaining "Stories of the Sierra". In addition, stay on top of the latest timeshare news and developments within Olympic Valley with special in-depth sessions devoted to each. Whatever brings you to the Olympic Village Inn this summer, there will be no shortage of activities, recreation, learning opportunities and relaxation available to you!

*"Spring flew swiftly by, and summer came; and if the village had been beautiful at first, it was now in the full glow and luxuriance of its richness. The great trees, which had looked shrunken and bare in the earlier months, had now burst into strong life and health; and stretching forth their green arms over the thirsty ground, converted open and naked spots into choice nooks, where was a deep and pleasant shade from which to look upon the wide prospect, steeped in sunshine, which lay stretched out beyond. The earth had donned her mantle of brightest green; and shed her richest perfumes abroad. It was the prime and vigor of the year; all things were glad and flourishing".*

~ Charles Dickens, Oliver Twist

Spencer, Nikki and I look forward to your return.

## Reservations... Ownership Information

### **Question? Are you taking full advantage of your ownership opportunities?**

Olympic Village Inn has done the calculations for you so that you can be active in planning your use weeks ahead of time. We have posted the "use" & "when to call" Calendars on our website for your easy access at any time.

- Reservations are available M-F, 8am-4pm to answer any questions in person.
- 3 week or more owners can book 1 year +340 days in advance
- 2 week owners can book 1 year +320 days in advance
- 1 week owners can book 1 year +300 days in advance
- Splitting weeks -1 year + 200 days in advance

Looking for extra space for family or friends? Owning multiple weeks is a great option. If purchasing another week is something you would like to consider, please contact us and we will get you all the information. Being proactive in timeshare ownership has many rewards.

- Early booking allows for choice weeks
- Creates opportunity for friends or family to join you
- Owning different seasons offers a variety of opportunities

### **Make mini vacations year round affordable by utilizing your owner rental discount.**

- 25% off the Rack Rate, Non-Holiday
- Taking advantage of the Spontaneity specials
- Taking advantage of Bonus Time
- Splitting your week for twice the fun

(Continued on page 4)

## OVI Owners Have 20 Exchange Companies They Can Choose From

Years ago, when the Olympic Village Inn first opened (December 1982) there were only two Exchange Companies available to OVI Owners; Resort Condominiums International (RCI) and Interval International (II). They are still the major players in the world of exchange and can give their members world wide reach for exchange vacation options.

As with most other things in our world, things have changed. There are now 20 different companies that OVI owners can access for their exchanges. Some of these companies do not charge an enrollment fee or an annual membership fee. They do all charge an Exchange Fee, some as low as \$99 and some will provide upgrades to larger units for no fees. (See enclosed insert for a partial list of these exchange options.)

Many OVI owners tell me, they are primarily interested in using their weeks at OVI and are only interested in exchanging occasionally. In many cases, those owners are also not interested in world wide travel. For them it may make sense to explore exchange options other than RCI and II. It really depends on where, and how often, an owner wants to do an exchange vacation. For owners that are not RCI Points members, they can utilize different companies at different times.

It is nice to have many choices but it is also important to learn about the choices before you plan a vacation. Each week, as a scheduled activity, I offer a short, Timeshare 301 discussion on the many exchange choices available to OVI owners. Plan on attending the next time you are here at the resort.

## SQUAW VALLEY SKI HOLDINGS, LLC REACHES AGREEMENT ALLOWING BASE-TO-BASE GONDOLA CONNECTION BETWEEN SQUAW VALLEY AND ALPINE MEADOWS

*Planning Process to Design Gondola Connection Now Underway*

**[Olympic Valley and Alpine Meadows, Calif.] April 13, 2015** - Squaw Valley Ski Holdings, LLC today announced it has reached an agreement with the owner of private land located between Squaw Valley and Alpine Meadows to create a base-to-base gondola connection between the two iconic mountains. The gondola would make it easy for skiers and riders to explore both mountains with a single lift ticket or season pass, without needing to travel between the two by car.

"For decades, skiers and riders have talked about connecting these two world-class resorts," said Andy Wirth, president and CEO of Squaw Valley Ski Holdings, LLC. "Over the last four years, we've made significant improvements to enhance the skier experience at both Squaw Valley and Alpine Meadows. The base-to-base gondola will offer our guests the ability to easily explore and experience the unique attributes of these two mountains via a brand new aerial connection, while simultaneously reducing vehicle traffic between them."

The planned gondola connection between the two mountains is due to a partnership between Squaw Valley Ski Holdings and Troy Caldwell, the owner of the private land dubbed "White Wolf," located between Squaw Valley and Alpine Meadows. The estimated completion date of the project will be subject to Placer County and US Forest Service approvals once applications are submitted.

"Connecting Squaw Valley and Alpine Meadows through White Wolf is literally bringing my long-time dream to fruition," said Troy Caldwell. "I've waited years for this to happen, and am pleased to have reached an agreement with Squaw Valley Ski Holdings to allow skiers and riders to easily move between these two incredible mountains."

Plans to connect the two mountains have commenced, and include the possibility of the lift to be constructed as a high-speed, detachable gondola that would operate between the base of Squaw Valley and the base of Alpine Meadows, traveling over the KT-22 Peak. There are no plans currently being contemplated to allow skiing or other non-skiing activities along the lift route or on the White Wolf terrain.

"We are pleased to have reached an agreement with Troy, and to have the opportunity to connect these two iconic mountains via gondola," said Wirth. "This connection represents a huge opportunity to give skiers and snowboarders a way to easily travel between Squaw Valley and Alpine Meadows and seamlessly experience the distinct terrain and unique culture of both mountains."

Squaw Valley Ski Holdings and Troy Caldwell will work with mountain planners at SE Group to design and construct the gondola connection to ensure good stewardship of the high alpine environment whose natural beauty is integral to the overall Squaw Valley Alpine Meadows experience. The planned base-to-base gondola will be carefully designed to minimize the overall footprint and potential visual impacts to the adjacent Granite Chief Wilderness, as well as maintain the scenic beauty of the area.

To accomplish this, design elements include minimizing the number of lift towers and eliminating the need to construct access roads. The result of these efforts would significantly reduce necessary timber removal and vegetation clearing for construction, and would minimize impacts on watershed, soils and natural resources throughout the planned lift corridor. Recognizing the visual sensitivity of the surrounding area – particularly the adjacent Granite Chief Wilderness, measures will be implemented to minimize the potential for adverse visual impacts from the perspective of design, materials and equipment selection, and operational practices. In addition, it is anticipated that the operation of the gondola will substantially reduce both resort shuttle service and guest vehicular traffic between the two resorts, leading to a reduction in overall vehicular emissions.

"The plan itself will be executed with incredible care and concern for our environment, and with the intention of taking cars off the road, effectively reducing vehicle travel between the two mountains," said Michael Gross, director of environmental initiatives for Squaw Valley Alpine Meadows. "Our guests will no longer have to drive from one mountain to the other to choose where they would like to ski. They will have the ability to simply ride a gondola to experience these two iconic, diverse mountains."

For more information about the Squaw Valley Alpine Meadows connection, visit [www.squawalpine.com/gondola](http://www.squawalpine.com/gondola).

### About Squaw Valley | Alpine Meadows

Squaw Valley Alpine Meadows is an internationally renowned ski resort in North Lake Tahoe that spans more than 6,000 skiable acres. The resort features 42 lifts and 270 trails, as well as the European-inspired Village at Squaw Valley featuring nearly 60 restaurants, bars, boutiques and art galleries. Snowfall averages 450 inches, providing one of the longest ski and snowboard seasons in Lake Tahoe, and establishing Squaw Alpine as a top destination for spring skiing and boarding. Squaw Alpine also boasts one of the region's only mountain-top beginner areas and several intermediate skier havens including Shirley Lake and the newly renamed Pacific Crest Bowls.
